Subject: Duke power rate increase

I live in Laurens County and there are no public meetings scheduled for this area! I am in total opposition of any rate increase in this recession and depressed economy! I am on disability, fixed income and what fuel prices have done to increase the cost of all items across the board, food, medicine, shipping cost for prescriptions, non-perishables; ie Toilet paper and other personal hygiene necessities,,,,etc, etc,,,.

I cannot afford a rate increase!

I am already on the EPP plan and this is the second rate increase they want' to impose on me this year! My actual KWH usage is down from previous years but, they want raise my payments solely for their rate increase!

Fred Smallwood
Hickory Tavern, SC

Neighbors, please write in opposing this increase also?
